

Mac VPN Installation Steps:

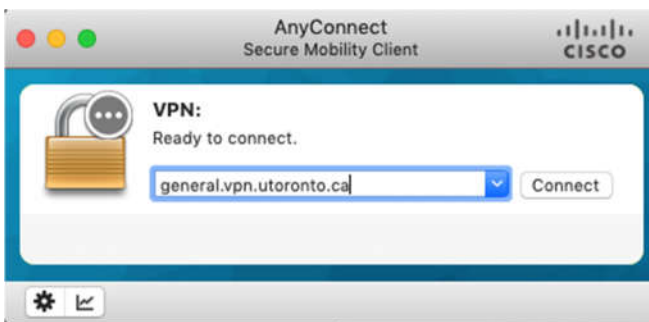

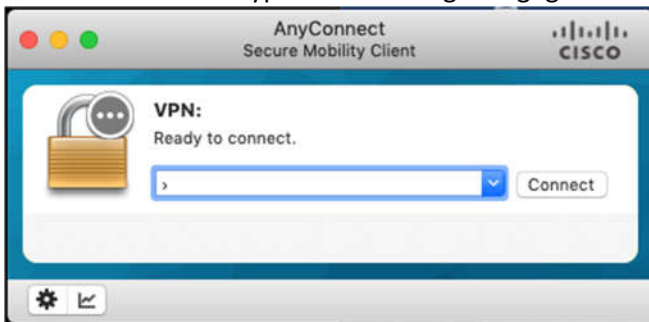

- After double clicking on the dmg files, you should see the following Cisco and Safenet on the top right-hand corner of your screen:

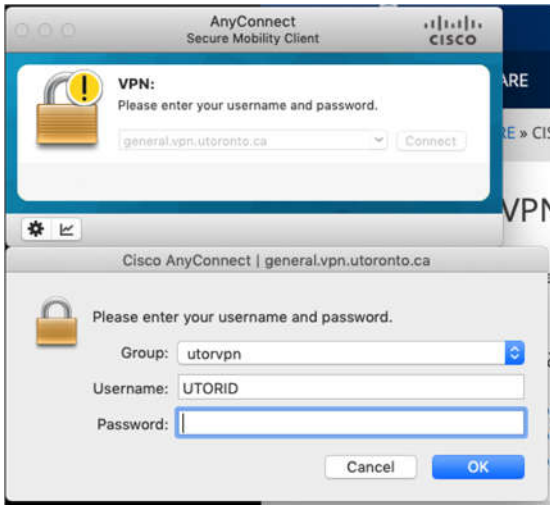

- Click on the Cisco icon to open the connection menu:

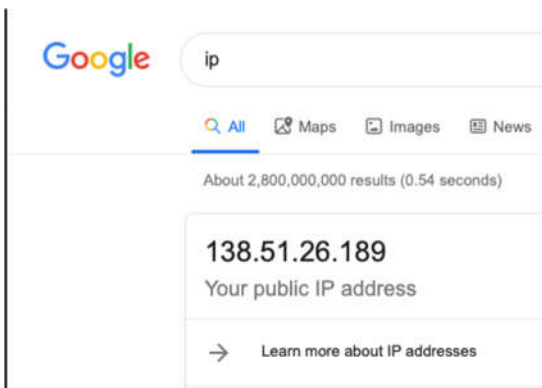

- Select Connect and type the following string: `general.vpn.utoronto.ca`

-
- After connecting to general.vpn.utoronto.ca, if you check the IP off the browser, you should have an IP in the range of: 138.51.26.x.

-
