

How to configure your office computer for remote access

To setup your office computer for remote RDP access please follow the steps outlined below.

- 1) Go to Control Panel, All Control Panel Items, System
- 2) Click on Remote Settings
- 3) Check the Allow Connections From Computer option
- 4) Then click the Select Users button
- 5) In the next window click the Add button and select the user to have RDP access click OK
- 6) Click OK again to save the settings.
